An Appropriate Emblem.

The American buffalo exemplifies to the fullest extent the elements of heavy rugged strength in animal life, and the Buffalo Brewery Co. have made a peculiarly appropriate selection of a trademark in choosing this animal to represent its productions, in that the tonic and refreshing properties of the Buffalo beer promote health and invigorate the system, producing a similar condition of hardy strength in the human frame. The Royal, Cosmopolitan and Pacific saloons are the media of distribution for this famous brew to an appreciative public, and the interchangeable check is the passport at any of these favorite resorts. Drink "Buffalo" only.

A wonderful treat is in store for all sorts of people, all that is needed for enjoyment being the price of admission, which is particularly low, and ordinary eyesight. It will be at the Opera House on Friday evening, nothing less than Edison's "Veriscope."

This will show on a screen moving scenes of metropolitan city life, such as the run of the machines to a fire, etc. Those who have seen the reproductions of living scenes in the kinetoscope will understand fully what is meant, the veriscope doing the same thing not for one eye at a time but in view of an assembly simultaneously.

Why He Was Esteemed.

"I don't see why you all hold that blood-thirsty and quarrelsome Colonel Bowie in such high esteem," said the stranger.

"My dear sir, he's a wonderful man," replied the native. "He's the best shot that ever came into this part of the country, and he isn't afraid of anything that walks on two legs."

"And yet," persisted the stranger, "I doubt if you can point to one really creditable thing that he ever did."

"Oh, yes, I can," returned the native promptly.

"What?"

"He killed the bloodthirsty and quarrelsome Colonel Jags, so that we have only one of that kind to deal with now,"—Chicago Post.

Solemn Warning.

"Now, Josh," said the farmer to his 18-year-old son, "we allow to board a lot of city gals this summer, and you want to keep out of fallin' in love with 'em sure. It ain't been more'n 80 year ago that I fell in love with one of our city boarders, and when she jilted me," he continued, lowering his voice and looking cautiously over his shoulder, "it made me feel so bad that I rushed right off and married your maw before I thought what I was doin'."—Cincinnati Enquirer.

Hay and Grass.

"What became of the Jones boys?" asked the returned native. "Bill staid on the farm," said the resident native, "and Ed went to Sioux Falls and opened a law office." "Oh, one makes hay and the other makes grass widows, eh?"—Indianapolis Journal.

LEWIS & Co.

W. W. DIMOND'S

In many parts of "the land of the free and the home of the brave" at this time of the year building operations are suspended, and every man has his eye on the coal dealer while watching the water pipes showing a tendency to freeze up. In Honolulu where spring is four seasons in the year, carpenters may work inside or out.

The unusual operations of the past year has had a depressing effect upon edge tools, for, like everything else, they give way with too constant use. We have, in view of the prospective demand, made a big buy of the finest grade of tools obtainable in eastern markets; they are what carpenters and machinists need all the time and when buying the best they get is that which lasts longest and obviates the necessity of "breaking in."

We have the Millers Falls Company ratchet brace, with drill attachment. The Elkin's saw file. Bailey's adjustable blade, wood and iron base planes. Steel tape measures, guaranteed to be accurate. Two-foot rules in ivory and bound with German silver Olmstead's improved mitre boxes. The "New Roger's" foot power scroll saw with drill and emery attachments. These goods are all guaranteed first-class.
